GATEWAY SA SERVICE

8. GATEWAY SA SERVICE

8.1 Description

Gateway SA service is offered to other telecommunications carriers desiring direct trunk-side access to the Company's network in order to originate or terminate calls only to the analog voice grade channels corresponding to company provided access lines. Gateway SA service will support Inter-Machine and Feature Group D protocols.

8.2 General Regulations

8.2.1 Carrier Access Orders for Gateway SA Service will be placed on Standard Bellcore Access Service Requests (ASR).

8.2.2 Gateway SA service is provided via a dedicated trunk-side port on the Company's switched network at the digital DS-1 and DS-3 levels.

8.2.3 Gateway SA Ports are only available at the Primary Distribution Nodes provided by the Company. The customer is responsible for providing digital DS-1 and DS-3 transmission links between its premises and the Company's Primary Distribution Node, and a DSX-1 Panel Terminal interface at the Company's Node. The DS-1 and DS-3 transmission links may be obtained from any other telephone company which terminates transmission facilities at the Company's Primary Distribution Node, or may be provided over the Customer's own transmission facilities.

8.3 Rates

8.3.1 Rate Elements

This tariff includes services for which the following rate elements apply:

a) **Non-Recurring Charges**

Non-recurring charges are applied as a one-time fee normally at the time the circuit is initiated.

b) **Monthly Recurring Channel Termination Charge**

The monthly recurring charge is billed monthly in advance and is assessed on each channel termination based on the terms and conditions of this tariff, the customer service agreement, or a master service agreement.

c) **Fixed Mileage Charge**

The fixed mileage charge is a recurring monthly fee which is applied to a circuit for which the LEC would charge a comparable fee in association with an interoffice channel.

8.3 Rates - (Continued)

8.3.1 Rate Elements - (Continued)

d) Variable Mileage Charge

Variable mileage charge is a recurring monthly fee which is applied to a circuit for which the LEC would charge a comparable fee in association with an interoffice channel. In general, the variable mileage charge is calculated using V&H tables.

8.3.2 DS-1

	<u>Non-Recurring Rate</u>	<u>Recurring Rate</u>
Per-Channel Termination		
First Circuit	\$535.00	\$100.00
Additional Circuits (same termination)	\$535.00	
Fixed Mileage		\$63.75
Per-Mile Charge		\$13.60
Outside Service Zone Termination Surcharge		\$35.00

8.3.3 DS-3

	<u>Non-Recurring Rate</u>	<u>Recurring Rate</u>
Per-Channel Termination		
First Circuit	\$1,500.00	\$2,975.00
Additional Circuits (same termination)	\$1,500.00	N/C
Fixed Mileage		\$759.05
Per-Mile Charge		\$98.60
Outside Service Zone Termination Surcharge		\$100.00

8.3.4 Switched Access Service

Switched Access service is provided pursuant to the rates contained in the Company's O.C.C. Tariff No. 1.

MESSAGE TOLL SERVICE**9. MESSAGE TOLL SERVICE****9.1 Description**

IntraLATA toll service is furnished for telephone communication between telephones in different local calling areas within the LATA in accordance with the regulations and schedules of charges specified in this tariff. The toll service charges specified in this section are in payment for all service furnished between the calling and called telephone, except as otherwise provided in this Tariff.

The LATA is an area defined in the Modification of Final Judgement entered by the United States District Court for the District of Columbia in Civil Action No. 82-0192.

9.2 Timing of Messages

9.2.1 For station to station calls, call timing begins when a connection is established between the calling telephone and the called telephone station.

9.2.2 For person to person calls, call timing begins when connection is established between the calling person and the particular person, station or mobile unit specified or an agreed alternate. ⁽¹⁾

9.2.3 Call timing ends when the calling station "hangs up," thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Company operator.

9.2.4 Calls originating in one time period as defined under 9.3 and terminating in another will be billed the rates in effect at the beginning of six second increments.

9.3 Time Periods Defined ⁽²⁾

9.3.1 Peak: 8:00 a.m. to, but not including, 5:00 p.m. - Monday through Friday

9.3.2 Off-Peak: 5:00 p.m. to, but not including, 8:00 a.m. - Monday through Friday
All day Saturday and Sunday
All Holidays ⁽³⁾

⁽¹⁾ The rates specified under Section 14, Operator Services, may apply.

⁽²⁾ All times refer to local time

⁽³⁾ Holidays include Christmas, New Year's Day, Thanksgiving, Independence Day, and Labor Day.

GATEWAY CUSTOM EXCHANGE SERVICE (CES)

10. CUSTOM EXCHANGE SERVICE

10.1 Description

Gateway Custom Exchange Service (CES) is a Centrex service that provides the Customer with multiple individual voice upgrade telephone communications channels, each of which can be used to place or receive one call at a time. Gateway Custom Exchange Service Station Lines are provided for connection of Centrex-compatible, Customer-provided station sets to the public switched telecommunications network.

10.2 General Regulations

10.2.1 Gateway Custom Exchange Service is provided in combination with other Company-provided services.

10.2.2 Gateway Custom Exchange Service is offered as Custom Exchange Service I (CES I) and Custom Exchange Service II (CES II).

10.2.3 Promotional Offerings: The Company, from time to time, may make promotional offerings of its services which may include waiving or reducing the applicable charges for the promoted service. The promotional offering may be limited as to the duration, the date and times of the offerings and the locations where the offerings are made. Promotional offerings are intended to be limited duration programs which are beneficial to customers, and are not intended to replace the Company's obligations to seek approval of permanent rates and charges. The company shall notify the director of the Public Utility Division by letter specifying the service(s) offered, terms of the promotion, location and dates of each promotion. Such notice shall be provided 30 days prior to the initial offering of the campaign. Any promotional campaign found not to be in the best interest of the end-user(s) shall be rejected by the Director of the Public Utility Division and returned to the Company with a brief explanation of the reason for the rejection.

10.2.4 Station Line Charges

Custom Exchange Service Station Lines are charged on a monthly basis.

10.2.5 Usage Charges

In central offices where facilities are available for timing of messages, local usage charges for measured service calls apply, as specified under Section 4, Local Exchange Services.

10.2.6 Rates and charges for CES I and CES II apply as outlined under D., following.

10.3 Custom Exchange Service - I (CES)

A. The following call processing features are included in CES I and are provided under control of the common equipment of the central office switching system.

10.3.1 Standard System Features*Full Network Access (Squared System)*

There is no pre-defined limit on the number of exchange access or intercom calls active at any one time.

10.3 Custom Exchange Service - I (CES) (Continued)

A. The following call processing features are included in CES I and are provided under control of the common equipment of the central office switching system. (Continued)

10.3.1 Standard System Features (Continued)

Direct Inward Dialing

Arrangement which allows an incoming call to reach a CES station without attendant assistance.

Individual dialing plan

Provides the ability to interpret dialed digits according to customer specific dialing sequences.

Intercom dialing

Permits the customer to dial an access code to reach another CES station without having to dial 7 digits.

Touch-Tone calling service

Full, Semi, Un-restricted station Capability

Fully Restricted: Allows only station-to-station (intercom) calling capabilities

Semi-Restricted: Allows access to the exchange network only for local calling.

Unrestricted: Allows access to the exchange network, the toll network or any service accessible by dialing.

Access treatment screening

Stations can be individually allowed or disallowed access to system features.

Attendant capabilities

Attendants may be designated to handle incoming, internal, and other call types with various special telephone consoles.

Centralized attendant services

For multi-location customers, the attendants can be located in only one location.

10.3 Custom Exchange Service - I (CES) (Continued)

- A. The following call processing features are included in CES I and are provided under control of the common equipment of the central office switching system. (Continued)

10.3.1 Standard System Features (Continued)

Flexible night service

Provides the ability to forward each listed directory number to a unique customer-changeable night directory number.

Automatic Station Message Detail Recording -ASMDR

Provides a record (via printout) of call details (date, time, etc.) on outgoing calls.

10.3.2 Enhanced Control System Feature Package

Auto Route Selection

Directs outgoing calls to the customer's most preferred available route. If the primary route is busy, the ARS feature automatically tries alternate routes. The customer will preselect a sequence of routes which may include private or public carrier services. A warning tone is provided to indicate the selection of the least preferred route.

Account Code

Permits CES stations and attendants to dial in account code number of eight digits. For use when placing calls over facilities arranged for Automatic Message Accounting (AMA) recording. The account or project number must be input prior to dialing the called number.

Authorization Code

Allows different station users to have different calling privileges. Dialing capabilities can be defined and restricted to authorized personnel.

Time of Day Do Not Disturb

Activates Do Not Disturb at particular times. Allows for setting both the time and day for a particular action to occur (for example, the customer wants to have feature "do not disturb" activated at noon on Tues. through Wed.).

Time of Day Routing

Changes routing by time of day.

- A. The following call processing features are included in CES I and are provided under control of the common equipment of the central office switching system. (Continued)

10.3.2 Enhanced Control System Feature Package (Continued)*Dial Call Waiting*

Provides the ability for originating CES stations to invoke a Call Waiting service on selected intragroup calls.

Priority Ringing

Differentiates incoming calls by signaling the customer with a distinctive ringing pattern.

10.3.3 Optional System Features*Access Circuit - Music on Hold*

Allows customers to optionally provide music, or any other type of customer-provided audio source, to calls on hold.

Access Circuit - Loudspeaker Paging

Allows dial access to subscriber-owned loudspeaker paging equipment. The paged party can be connected to the calling party by dialing an answering code from any station within the subscriber group.

Access Circuit - Pollable SMDR

Provides a record of call details (date, time, etc.) on outgoing calls placed over a customer's private or public facilities on an interactive basis.

Access Circuit - Private Facilities

Allows the customer to have dial access to various types of public and private switching arrangements (i.e. 800-Service Simulated Facility Group, Tie Trunk Access, Common Control Switching Arrangement Access, etc.), provided by a subscriber dialed access code.

Auto Attendant Capabilities

Automatically answers listed number calls, and play back options to the caller. One typical option is "dial 1 for sales, dial 2 for help desk, if you know the extension dial it now, etc.

- A. The following call processing features are included in CES I and are provided under control of the common equipment of the central office switching system. (Continued)

10.3.3 Optional System Features (Continued)

Six-Way Conference Circuit

Allows a station user to initiate a conference call. A total of five conferees can be added to the conference in addition to the originator. The customer may order more than one conference circuit.

- B. The following features are available with each CES I line located at a designated customer primary location. Where facilities and operating conditions exist, features of a CES I system may be extended to stations of the same system located at customer secondary locations.

10.3.1 Standard Features

Individual Telephone Number

Each station line has its own telephone number.

Individual Access Screening

Each station is assigned its own access treatment code for call screening.

Single Digit Dialing

Permits a station user to reach selected lines or other internal facilities for special customer services by dialing a single-digit code.

Hot Line Stations

Automatically calls a pre-selected station when the Hot Line station goes off hook.

Touch-Tone

All station lines are equipped for Touch-Tone dialing

Call Hold

Allows a station user to hold any call in progress, thereby freeing the line for the purpose of originating another call or answering a waiting call.

- B. The following features are available with each CES I line located at a designated customer primary location. Where facilities and operating conditions exist, features of a CES I system may be extended to stations of the same system located at customer secondary locations. (Continued)

10.3.1 Standard Features (Continued)***3-Way Calling***

Allows a station in the talking state to add a third party to the call. To add a third party to the call, the 3-Way Calling subscriber flashes the switchhook once to place the other party on hold, receives a dial tone, dials the telephone number of the third party, and then flashes the switchhook again to establish the three-way connection.

Call Forwarding - Variable**(1) (Limited)**

When this feature is activated by a station line user or the attendant, incoming calls to the activated station line or attendant position will be automatically routed to any other selected station line, within the same CES system, or to the attendant position. The attendant may also activate this feature for a station line user.

(2) (Unlimited)

The same as Call Forwarding Variable Limited except that incoming calls may be automatically routed to a telephone number outside the CES system or to station lines within the same CES system. The attendant may not activate this feature to a telephone number outside the CES system for a station line user. Calls forwarded outside the CES system are subject to the appropriate charges for local and toll messages.

Call Forwarding - Busy

Allows incoming calls to a busy station to be routed to a preselected station line, attendant, or voice mail system within the same system or outside the system. Intercom calls can be arranged to be forwarded to a number different from DID calls.

Call Forwarding - Don't Answer

Allows incoming calls to be automatically routed to a preselected station line, attendant, or voice mail system in the same system or outside the system, when the called station is not answered after a preset number of rings. Intercom calls can be arranged to be forwarded to a number different from DID calls.

- B. The following features are available with each CES I line located at a designated customer primary location. Where facilities and operating conditions exist, features of a CES I system may be extended to stations of the same system located at customer secondary locations. (Continued)

10.3.1 Standard Features (Continued)

Remote Activation of Call Forwarding

Allows the user to activate and/or deactivate the Call Forwarding feature from any remote location, using a Touch-Tone phone.

Hunting

Routes a call to an idle station line in a prearranged group when the called station line is busy.

Call Park

Allows a station line to park a call against its own line number. The parked call can be retrieved from any station line by dialing the feature code and the line number against which the call is parked.

Call Pickup

Allows a station line to answer incoming calls to another station line within a defined pickup group. Call pickup is provided on individual station lines within a customer group.

Call Transfer

Allows a station line user to transfer any established call to another station line inside or outside the customer group without the assistance of the attendant.

Auto Recall (intra-group)

Permits the station user to have calls automatically redialed, within a defined group within the CES system, when the first attempt reaches a busy.

Customer Changeable Speed Calling

Allows a user to establish a speed calling list, each of which is associated with a unique 2-digit speed calling code. Initial entry and changing of a speed calling list are directly input from the user.

10.3.2 Optional Bundle*Automatic Callback - Outside*

Allows a station user who encounters a busy condition to be automatically called back when the called line becomes idle.

Automatic Recall - Outside

Automatically redials the last incoming call.

Caller ID - Outside

Provides the station user with the telephone number of the calling party before answering the phone.

Call Trace

Allows the station user to dial a code to automatically request a record of the caller's origination telephone number, the date and time of the call. The information is disclosed only to a law enforcement agency for investigation purposes.

10.3.3 Premium Bundle*Selective Call Acceptance - Outside*

Allows you to create a list of telephone numbers from which you are willing to accept calls. List parameter is 31.

Selective Call Rejection - Outside

Allows you to create a list of telephone numbers from which you do not wish to receive calls. Calls from telephone numbers on your list are sent to an announcement that informs the caller you are not receiving calls at this time. List parameter is 16.

Selective Call Forwarding - Outside

Allows you created a list of "selected" telephone numbers that you want to be forwarded to another number. Calls from the telephone numbers on our list will be forwarded to the number you have designated. List parameter is 16.

Screen List Editing/Selection Control

Allows users to create and modify lists of telephone numbers associated with a directory number. These listed numbers are used to identify calling parties. Interactive recorded announcements are used to guide users in editing screening lists.

C. CES Line Features - ISDN Interface

Class of service restriction:

Fully Restricted Capability: Allows only station-to-station (intercom) calling capabilities

Semi-Restricted Capability: Allows access to the exchange network for local calls only.

Unrestricted Capability: Allows access to the exchange network, the toll network or any service accessible by dialing.

National ISDN Compatibility

Out of Band (D channel) Signaling

Multiple Call Appearances/Same Number

A directory number that is assigned more than one business set. The business sets that are assigned this directory number are known as a Multiple Appearance call group.

Two Status LEDs per Appearance

Multiple Telephone Number Coverage

One station line can answer calls to many telephone numbers.

Coverage for Analog or ISDN sets

One ISDN station line can observe the state (busy or idle) of other station lines, whether analog or ISDN.

Simultaneous Voice/Data/Signaling

Voice, data, and signaling happens simultaneously without interruption or interference.

Multi-point ISDN Line

Allows up to 8 separate devices to be connected to one ISDN station line.

Voice/Data Protection

Prevents data calls from being interrupted by call waiting tones, testing or busy verification attempts.

10.5 RATES AND CHARGES

10.5.1 Payment Plans

The CES I and CES II payment plan offers the customer two options for payment.

a) Fixed Monthly Rate Plan

Under this plan the customer pays a fixed monthly rate for a specified contract term. The customer may choose a 1, 2, 3, 4, or 5 year contract. During the course of the contract, fixed rates (recurring and non-recurring) are not subject to Company initiated rate changes.

b) Month-to-Month Plan

Under this plan the customer elects to pay month-to-month. Month-to-month rates (recurring and non-recurring) are subject to Company initiated rate changes.

10.5.2 Rates Elements ⁽¹⁾

	Non- Recurring (New)	Non- Recurring (Changes)	Month to Month	1 Year	2 Year	3 Year	4 Year	5 Year
<u>CES I - System</u>								
<u>Features</u> ⁽²⁾	\$125.00	⁽³⁾ ⁽⁴⁾	\$70.00	\$65.80	\$64.40	\$63.00	\$61.60	\$60.20
<u>Enhanced Control</u>								
<u>Pkg.</u> ⁽²⁾	\$500.00	⁽⁵⁾	\$35.00	\$32.90	\$32.20	\$31.50	\$30.80	\$30.10
<u>Optional Features</u>								
Access Circuit-Music on Hold ⁽⁶⁾	\$50.00	\$65	\$22.50	\$21.15	\$20.70	\$20.25	\$19.80	\$19.35
Access Circuit- Loudspeaker Paging ⁽⁶⁾	\$50.00	\$65	\$22.50	\$21.15	\$20.70	\$20.25	\$19.80	\$19.35

⁽¹⁾ Service Connection Charges under Section 3, apply in addition to the non-recurring (new/change) charges.⁽²⁾ Non-recurring and monthly rates apply, per system (includes all lines/stations in the system).⁽³⁾ A \$35 non-recurring charge for changes apply to the Individual Dialing Plan and/or Access Treatment Screening features; A \$65 non-recurring charge for changes apply for changes to the ASMDR feature.⁽⁴⁾ See Service Connection Charges, Section 3.⁽⁵⁾ A \$150 non-recurring change charge applies for Auto Route Selection; A \$35 non-recurring change charge applies for Authorization Codes, Time of Day Do Not Disturb, or Time of Day Routing features; A \$25 non-recurring change charge applies for Dial Call Waiting, Priority Ring features.⁽⁶⁾ Non-recurring and monthly rates apply, per arrangement (includes all lines/stations within a predetermined line/station arrangement).

GATEWAY OMNISERV DIGITAL EXCHANGE SERVICE**11. GATEWAY OMNISERV DIGITAL EXCHANGE SERVICE****11.1 Description**

The Company's Omniserv is a digital trunk service providing 1.544 Mbps connection between the customer's compatible PBX and the switched public telephone network or other private and long distance facilities. Omniserv provides 24 voice grade channels on digital facilities which the customer may have allocated among public switched network access, DID and DOD trunks, 800 service, or other applications such as FX lines, OPX lines, dedicated access to long distance carriers.

11.2 Rate Regulation

11.2.1 Dedicated access and private line channels are charged at a flat rate per active channel. Rate elements include a DS1 facility charge with muxing. Dedicated channel rate includes the channel termination charge to deliver service to terminating locations. Mileage charges applicable to dedicate service channels are calculated using mileage comparable to those charged by the local exchange carrier using V&H coordinates for the serving wire center of the originating and terminating NPA NXX.

11.2.2 The Company's Omniserv service is available with minimum one-year contract.

11.3 Rate Elements and Pricing

11.3.1 Following are the Non-recurring and Monthly Charges for Omniserv service:

	<u>Non-Recurring</u>	<u>Monthly Charges</u>
a) Omniserv Basic Link	\$850.00	\$300.00
b) Service Channel		
1. Switched		\$22.00
2. Dedicated		
a. Dedicated access or private line channel		\$65.00
c) Channel Mileage		
1. Fixed mileage charge ⁽¹⁾		\$24.00
2. Mileage charge ⁽¹⁾		\$ 2.15

⁽¹⁾ Applies per dedicated channel
